

**The Stage 1 Advisory for North Pole has been implemented, (Stage 2 has been cancelled)**

No Alert or Advisory in Fairbanks.

FNSB – Implemented Tuesday, October 11, 2016 @ 11:30am.

The Advisory will expire at 5pm Wednesday October 12, 2016.

Stage 1 Advisory - Voluntary Restrictions:

Residents are requested to voluntarily stop operation of solid fuel , pellet , and waste oil burning appliances, as well as masonry heaters and all outdoor burning that includes recreational fires such as bonfires, campfires and the use of fire pits, non-permitted incinerators and burn barrels in the Air Quality Control Zone.

Air Quality in North Pole is classified as Moderate. Unusually sensitive people should consider reducing prolonged or heavy exertion.

Forecast: The NWS forecast and local conditions are resulting in good to fair dispersion. So we are forecasting North Pole air quality to remain Moderate, with 24hr average PM-2.5 values  $>25\mu\text{g}/\text{m}^3$ . And Fairbanks air quality to remain Good to Moderate. PM2.5 levels will be higher in the evening hours, and will disperse during the warmer daylight hours.

Note that Air Quality readings are from monitoring stations in Fairbanks & North Pole, and may not be representative of your neighborhood. If you are sensitive to air pollution, or experience any respiratory problems, please follow the instructions of your physician.
